## PREFACE.

---

We offer to the public our second Directory of Richmond, hoping that it will meet with their approval. No pains have been spared to make this a reliable and useful book. A thorough and systematic canvass of the city has been made, and every effort used to obtain the names of all persons who should be represented in a City Directory. Errors have, no doubt, crept in; but we are confident that no more reliable work has ever been published.

The classified Business Directory contains the names of all business persons, arranged alphabetically, with reference to the various pursuits of the business community, and represents the business of Richmond as only a Business Directory can. The Directory of Public Institutions will prove very useful to strangers. The Street Directory is a complete Guide to the streets and avenues of the city, and will be found useful to all.

Our thanks are due our numerous patrons for the liberal patronage extended to us.

Respectfully,

THE PUBLISHERS.
